EDUCATION

Maharashtra Institute of Technology, Chhatrapati Sambhaji Nagar B.Tech (Computer Science & Engineering) CGPA: 9.10	June 2022 - June 2026
Late Pundlikrao Patil High School, Mohra (11th & 12th) Board: Maharashtra State Board, Percentage: 79.84%	2020 - 2022
A.K. Waghmare High School, Chhatrapati Sambhaji Nagar (10th) Board: Maharashtra State Board, Percentage: 87.40%	2020

TECHNICAL SKILLS

- **Languages & Databases:** Java (Core & Advanced), HTML, CSS, JavaScript, React, SQL
- **Core & Advanced Java:** OOP, Exception Handling, Collections, Multithreading, JDBC
- **Java 8+ Features:** Lambdas, Streams, Functional Interfaces, Optional
- **Frameworks & Tools:** Spring Core, Spring MVC, Spring Boot, REST APIs
- **Other Skills:** Problem-Solving, Team Collaboration

Experience

Intern – Indian Internet Solutions Pvt. Ltd. Chhatrapati Sambhaji Nagar

Jan 2026 – Present

- Worked on web development, game development and real-time project tasks.
- Gained hands-on experience in frontend, backend, and team collaboration.

PROJECTS

AI-Powered Database Management System | Java, OpenAI API, MySQL, JavaFX

A system that converts natural language (English) into SQL queries using AI and executes them on a database.

- Developed a system that converts natural language into SQL queries using OpenAI.
- Implemented Java backend with JDBC to connect and execute queries on MySQL.
- JavaFX provides layouts, buttons, and UI for executing and displaying MyDB queries.
- Enabled non-technical users to query the database without writing SQL manually.

Hospital Management System | Java, Spring Boot, Spring MVC, Hibernate, MySQL, Thymeleaf

Developed a full-stack hospital management platform to manage patients, doctors, appointments, and billing operations.

- Developed a role-based hospital management system supporting Admin, Doctor, Patient, and Staff modules
- Implemented appointment scheduling with real-time availability and emergency override feature
- Designed a dynamic billing system with multiple service items, payment tracking, and status management
- Built REST APIs and integrated them with a responsive frontend using Thymeleaf
- Ensured secure authentication and authorization using Spring Security

CERTIFICATIONS

- Database Foundation (Oracle Academy) – Course Completion Certificate
- Bootcamp on Robotic Process Automation (NIELIT) - Certificate of Completion
- Master Industrial Grade Python skills Workshop (Mr. Krishnakant Mane) – Certificate of Completion
- Bootcamp on Unmanned Aerial Systems (NIELIT) - Certificate of Completion
